

30) David Erickson Home - Built sometime before 1904. There is no information on who built this home. There are outbuildings, fences, a cistern and an irrigation ditch still on the property.

31) Theodore Brandley Home - Built in 1903 by Theodore Brandley Home is outside of the Village but because of the important role Theodore Brandley played in settling Stirling, his home has been noted.

32) Irrigation Ditch - Ditch comes from Milk River Ridge Reservoir which is fed by the St. Marys River.

33) Christensen Home - Built in 1933. Peter Christensen introduced the first alfalfa grown here and started the growing of ash trees in Stirling. This property also has an outbuilding and cistern.

34) Louis Zaugg Home - Original home was 2 rooms and built by Louis Zaugg. In 1925 another house was moved in north of the original. The 2 houses were only joined by planks for about 10 years, after which the middle section was built. There are outbuildings, a cistern, and root cellar still on this property.

35) Amy Wright Home - Built by Wrights in 1937. Added onto in 1978 on the south and east side. Property has outbuildings, a root cellar, cistern, and shelterbelt.
